

# Hard Suit Love Song

Music and Lyrics by Andrew Heinrich

Do you want to be queen dear?  
Get away for a while  
I can make me some armor  
At our old friend Gile's  
I'm not a knight or a master  
I'm just a lord with a dream  
I'm not a hell of a fighter but you  
Inspire me it seems

I could set my goal smaller  
Something more my speed  
I could make you a princess  
If that would be thy need  
I got my sword and my roundshield  
I got my tape and my belt  
And our love by this campfire  
Is something I've never felt

The banners are flying  
The herald calls my name  
My life seems on the line now  
Though I know it's a game  
My opponent salutes me  
And his own lady in turn  
I give honor to kingdom as my  
Heart starts to burn

We're done in a moment  
One block one moment too late  
But my life doesn't end now  
Though I've lost the day  
Again he salutes me,  
And you're still standing there  
With a look of contentment and the  
Sun in your hair

You don't need to be queen, dear  
I should have seen it then  
You just want to be by me  
Side by side to the end  
You don't care if I'm knighted  
Or wear a crown on my head  
You just want to go home now  
And kiss my bruises in bed
